DOCKET FILE COPY ORIGINAL

Re: Petition for Rule Making  
Goldthwaite, Texas  
Channels 243A

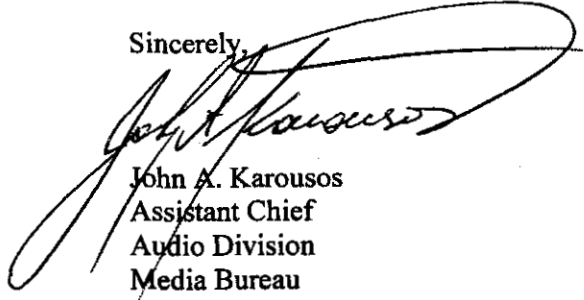

Dear Ms. Pyeatt:

I am writing in response to the Petition for Rule Making ("Petition") that you filed requesting the allotment of Channel 243A at Goldthwaite, Texas. In order to facilitate that allotment, you further request the substitution of Channel 241A for Channel 243A at Evant, Texas.

Your allotment proposal is unacceptable, because it is mutually exclusive with a proposal for the allotment of Channel 243A at Evant, Texas, currently pending in MB Docket No. 01-188. In allocation proceedings, rulemaking proposals are deemed defective if they are in conflict with, or contingent upon, a cut-off proposal in another pending proceeding. *See Milford, Utah*, 19 FCC Rcd 10,335 (MB 2004); *see also Amboy, California*, 19 FCC Rcd 13,405 (MB 2004), and cases cited therein.

Based on the above, we are returning your Petition for Rulemaking. You may resubmit the petition, provided that you make a showing that a fully-spaced transmitter site is available that provides city grade coverage to the entire community.

Sincerely,

  
John A. Karousos  
Assistant Chief  
Audio Division  
Media Bureau

Enclosure

Cc.: Gene A Bechtel, Esq.

MB Docket No.

To: John Karousos, Assistant Chief  
Audio Division of the  
Media Bureau

PETITION FOR RULE MAKING

Pursuant to 47 C.F.R. 1.401, Katherine Pyeatt respectfully petitions the FCC to institute a Rule Making proceeding to amend the FM Table of Allotments to add Channel 243A at Goldthwaite, Texas.

DISCUSSION

Petitioner respectfully submits that the public interest would be served by allocating Channel 243A to Goldthwaite, Texas as that community's first local service.<sup>1</sup> Goldthwaite, Texas is an incorporated city and the county seat of Mills County. Goldthwaite has a population of 1,802.<sup>2</sup> Goldthwaite was chartered in 1907 as a Type A General law City with a mayor and five alderpersons and

<sup>1</sup> MM Docket No. 01-154 proposes channel 297A to Goldthwaite but as of yet has not been allotted.

<sup>2</sup> 2000 U.S. Census

operates with a city manager. The City operates with an annual budget of \$2,000,000.00. Goldthwaite has its own Middel School and High School, fire department, post office and a number of local churches. Goldthwaite is a community that is certainly deserving of a local service. The proposed channel 243A will provide additional diversity and an outlet for local self-expression to Goldthwaite residents and therefore is in the public interest.

In order for Channel 243A to be allotted to Goldthwaite, Texas, the pending allotment for Channel 243A at Evant, Texas will need to be replaced with Channel 241A and the reference coordinates for the vacant allotment, Channel 240A at Burnet, Texas will need to be relocated approximately 1.97 km south.

The proposed changes are as follows:

	<u>Present</u>	<u>Proposed</u>
Goldthwaite, Texas	-----	243A
Evant, Texas	243A	241A
Burnet, Texas	240A	240A <sup>3</sup>

Attached hereto is a channel study confirming that Channel 243A can be allocated to Goldthwaite, Texas, consistent with the FCC's FM separation rules provided the changes are made at Evant and Burnet. See revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1992).

---

<sup>3</sup> Relocate the reference coordinates 1.97 km south.

(See, Attachment A) Note: 243C3/ ADD Mullin, Texas was dismissed by Report & Order, DA 03-3746, released 11/26/03.

(See, Attachment B) Also note: Dismissal was filed with the Commission on June 30, 2003 for Channel 243A at Goldthwaite, Texas. (See, Attachment C) And finally, please note that Channel 243C2 at Lago Vista was dismissed by Report & Order, DA 03-1533, released May 8, 2003. (See, Attachment D) Reference coordinates for Channel 243A at Goldthwaite,

Texas are:

31 28 00 N  
98 35 00 W

In order for Channel 243A to be allotted at Goldthwaite, Texas, the pending allotment for Channel 243A at Evant must be replaced by Channel 241A. Attached hereto is a channel study confirming that Channel 241A can be allotted to Evant, Texas, consistent with the FCC's FM separation rules provided the necessary change is made at Burnet. See revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1992). (See, Attachment E) The substitution of Channel 241A for Channel 243A at Evant, Texas has the support of the original proponent and only person to file an expression of interest in that pending allotment. (See, Attachment F)

Note: Channel 241A/ ADD Evant was dismissed by Report & Order, DA 03-3746, released 11/26/03. (See, Attachment B)  
The reference coordinates for Channel 241A at Evant, Texas are:

31 28 10 N  
98 06 46 W

In order for Channel 241A to be allotted at Evant, Texas, the reference coordinates for the vacant allotment for Channel 240A at Burnet, Texas must be moved approximately 1.97 km south. Attached hereto is a channel study confirming that the reference coordinates for Channel 240A can be relocated 1.97 km south consistent with the FCC's FM separation rules. See revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1992). (See, Attachment G) Note: 240A/ ADD Burnet was dismissed by Report & Order, DA 03-3746, released 11/26/03. (See, Attachment B)

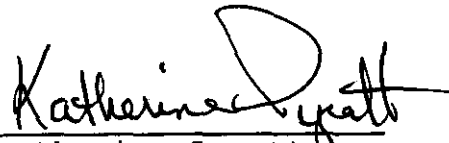

The new reference coordinates for Channel 240A at Burnet, Texas are:

30 50 08 N  
98 18 09 W

Should this petition be granted and Channel 243A be allotted to Goldthwaite, Texas, Petitioner will apply for Channel 243A at Goldthwaite and after it is authorized, will promptly construct the new facility.

The factual information provided in this Petition for Rule Making is correct and true to the best of my knowledge.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Katherine Pyeatt", with a large, stylized initial "P" or "Py" at the end.

Katherine Pyeatt

)  
)

**REPORT AND ORDER**  
**(Proceeding Terminated)**

**Adopted: November 21, 2003**

**Released: November 26, 2003**

By the Assistant Chief, Audio Division:

1. The Audio Division has before it a *Notice of Proposed Rulemaking*<sup>1</sup> issued at the request of Charles Crawford ("Crawford"), requesting the allotment of Channel 290C3 at Rising Star, Texas. Crawford filed late comments expressing his interest in the allotment of Channel 290C3 at Rising Star. Katherine Pyeatt ("Pyeatt") filed a counterproposal proposing a Channel 224C3 allotment at Gustine, Texas. No other comments were filed in response to the *Notice*. For the reasons discussed below, we are dismissing both the underlying proposal for a Channel 290C3 allotment at Rising Star and the counterproposal for a Channel 224C3 allotment at Gustine.

2. Crawford's comments were received at the Commission after the initial comment deadline unaccompanied by a motion to accept. It is the responsibility of the party submitting comments to ensure that documents are delivered to the Commission on time.<sup>2</sup> Paragraph 2 of the *Appendix to the Notice of Proposed Rule Making* clearly states that a rulemaking petitioner is expected to file a continuing expression of interest by the initial comment date. Since Crawford's comments were not accompanied by a request for late acceptance and did not contain an explanation for filing after the initial comment date, we will not accept his late-filed expression of interest. Moreover, in view of the filing of a timely counterproposal herein, we cannot consider Crawford's untimely expression of interest. Therefore, having determined that the initial comments of Crawford are deficient, and no other parties have stated an interest in an allotment at Rising Star, Texas, no further consideration will be made with regard to an allotment at Rising Star.

3. We are also dismissing the counterproposal for Channel 224C3 at Gustine, Texas. In order to accommodate this allotment, Pyeatt proposed a series of channel substitutions, including the substitution of Channel 287A for Channel 288A at Coahoma, Texas. However, the proposed Channel 287A allotment at Coahoma is short-spaced to the licensed site of Station KTXC, Channel 284C1, Lamesa, Texas, and cannot be considered.<sup>3</sup>

<sup>1</sup> See *Rising Star, Texas*, 18 FCC Rcd 15402 (MB 2003).

<sup>2</sup> See *Gosnell and Osceola, Arkansas; Germantown and Ripley, Tennessee*, 4 FCC Rcd 6170 (MMB 1989).

<sup>3</sup> See 47 C.F.R. §73.208.

4. IT IS ORDERED, That the petition for rule making filed by Charles Crawford, proposing the allotment of Channel 290C3 at Rising Star, Texas, IS DISMISSED.

5. IT IS FURTHER ORDERED, That the Counterproposal filed by Katherine Pyeatt IS DISMISSED.

6. For further information regarding the proceeding listed above, contact Kathleen Scheuerle, (202)418-2180.

7. IT IS FURTHER ORDERED, That this proceeding IS TERMINATED.

Motion to Dismiss Petition

An appropriate Affidavit, required by 47 CFR 1.420(j), is attached hereto.

June 22, 2003

SWORN AFFIDAVIT

Charles Crawford does state under penalty of perjury:

1. My name is Charles Crawford and I filed a Petition for Rulemaking to allot Channel 243A to Goldthwaite, Texas on May 21, 2003.
2. I have concluded to request that the FCC dismiss my Petition/expression of interest. I hereby certify that I have not nor will not receive, either directly or indirectly, any money or other consideration in connection with the dismissal of the Petition/expression of interest. I declare that the foregoing is true and correct to the best of my knowledge, information and belief.

Executed this 22<sup>nd</sup> day of June, 2003.

**REPORT AND ORDER**  
(Proceeding Terminated)

Adopted: May 7, 2003

Released: May 8, 2003

By the Chief, Audio Division:

1. The Audio Division has before it a *Notice of Proposed Rule Making* in the captioned proceeding.<sup>1</sup> Nation Wide Radio Stations filed Comments and Reply Comments. First Broadcasting Company, L.P., Rawhide Radio, L.L.C., Next Media Licensing, Inc., Capstar TX Limited Partnership and Clear Channel Broadcast Licenses, Inc. ("Joint Parties") filed a Counterproposal and Reply Comments. Fritz Broadcasting Co., Inc. and M&M Broadcasters, Ltd. filed Joint Reply Comments. Elgin FM Limited Partnership and Charles Crawford ("Elgin-Crawford") jointly filed Reply Comments and Maurice Salsa filed Reply Comments.<sup>2</sup> For the reasons discussed below, we are dismissing both the initial proposal for Channel 233C3 at Quanah, Texas, and the Counterproposal.

Background

2. At the request of Nation Wide Radio Stations, the *Notice* in this proceeding proposed the allotment of Channel 233C3 to Quanah, Texas.<sup>3</sup> In response to the *Notice*, the Joint Parties filed a Counterproposal involving twenty-two communities in Texas and Oklahoma. In one aspect of this Counterproposal, the Joint Parties propose the substitution of Channel 248C for Channel 248C2 at Durant, Oklahoma, reallocation of Channel 248C to Keller, Texas, and modification of the Station KLAK license to specify operation on Channel 248C at Keller, Texas. In order to accommodate this allotment,

<sup>1</sup> 15 FCC Rcd 15809 (MM Bur. 2000).

<sup>2</sup> In this proceeding, Texas Grace Communications, Elgin FM Limited Partnership, Charles Crawford, Maurice Salsa, M&M Broadcasters, AM&FM Broadcasters and the Joint Parties have filed additional pleadings. In view of our action dismissing the Joint Parties Counterproposal, it will not be necessary to discuss these pleadings in the context of this *Report and Order* terminating this proceeding.

<sup>3</sup> Nation Wide Radio Stations has withdrawn its expression of interest in this allotment. In accordance with Section 1.420(j) of the Rules, Nationwide Radio Stations states that neither it nor any of its principals have been paid or promised any consideration for the withdrawal of its expression of interest in the Quanah allotment.

the Joint Parties propose three channel substitutions. Included among those substitutions was the substitution of Channel 230C1 for Channel 248C1 at Archer City, Texas, and the modification of the Station KRZB permit to specify operation on Channel 230C1. On the basis of our own engineering review, Joint Reply Comments filed by Fritz Broadcasting Co., Inc. and M&M Broadcasters, Ltd., and Reply Comments filed by Maurice Salsa, the proposed transmitter site (33-36-58 and 98-51-42) for the Channel 230C1 allotment at Archer City is short-spaced to a prior-filed application filed by AM & FM Broadcasters, LLC, licensee of Station KICM, Channel 229C2, Krum, Texas, to upgrade to Channel 229C1 (File No. BMPH-20000725AAZ) (the "KICM Class C1 Application").

3. Counterproposals that are in conflict with a previously filed application can be considered if the counterproposal is amended to remove the conflict within 15 days from the date the counterproposal appears on public notice.<sup>4</sup> The Note also requires a counterproponent to show that it could not have known by exercising due diligence of the pending conflicting FM application. The Joint Parties and AM & FM Broadcasters submitted Reply Comments addressing this issue. Under the agreement, AM & FM Broadcasters agrees to file an application to downgrade Station KICM to Channel 229C2 in the event its application is granted and the Counterproposal is adopted. Pursuant to the agreement, the Joint Parties would "compensate" AM & FM Broadcasters for the downgrade of Station KICM. On August 20, 2001, the staff granted the KICM Class C1 Application.

#### Discussion

4. We dismiss the Counterproposal because the proposed Archer City Channel 230C1 allotment is short-spaced to the KICM Class C1 construction permit. The Joint Parties have not shown that they could not have known about the then-conflicting KICM Application. Nor have the Joint Parties sought to amend their Counterproposal to protect the proposed Archer City Channel 230C1 allotment.

5. The Commission does not entertain a short-spaced allotment that is contingent on the grant of another application.<sup>5</sup> This is precisely what the Joint Parties seek. The Archer City allotment is short-spaced to the KICM construction permit and contingent on the staff granting future applications by AM & FM Broadcasters for both a Class C2 construction permit and license. We reject Joint Parties argument that its downgrade proposal complies with the contingent application procedures set forth in Section 73.3517(e) of the Commission's Rules. Section 73.3517(e) permits the simultaneous acceptance of contingent *minor change applications*. It does not authorize the filing of contingent rulemaking petitions. Accordingly, the Counterproposal must be dismissed.

#### Alternative Proposals

6. The Joint Parties filed an alternative twelve-allotment proposal in anticipation of a staff determination that the Channel 230C1 Archer City allotment is impermissibly short-spaced to the KICM permit. We reject this alternative. A counterproposal must conflict with the proposal set forth in the *Notice*.<sup>6</sup> In this instance, none of these proposals conflict with Nation Wide Radio Station's initial proposal for a Channel 233C3 allotment at Quanah. As such, we will not bifurcate the Counterproposal or otherwise consider any of these proposals in the context of this proceeding.<sup>7</sup>

<sup>4</sup> See Note to Section 73.208 of the Rules; see also *Conflicts Between Applications and Petitions for Rule Making to Amend the FM Table of Allotments*, 8 FCC Rcd 4743 (1993).

<sup>5</sup> See *Oxford and New Albany, Mississippi*, 3 FCC Rcd 615 (MM Bur. 1988), *recon.* 3 FCC Rcd 6626 (MM Bur. 1988); see also *Cut and Shoot, Texas*, 11 FCC Rcd 16383 (MM Bur. 1996).

<sup>6</sup> See *Implementation of BC Docket No. 80-90 to Increase the Availability of FM Broadcast Assignments*, 5 FCC Rcd 931, n. 5 (1990).

<sup>7</sup> See also *Broken Arrow and Bixby, Oklahoma, Coffeyville, Kansas*, 3 FCC Rcd 6507 (MM Bur. 1988).

7. In the event that its Counterproposal can not be favorably entertained, the Joint Parties advance two alternative proposals. The staff no longer entertains alternative proposals set forth in counterproposals.<sup>8</sup> In any event, each of these alternatives fails to comply with our rules and procedures. The first proposal involves the proposal to reallocate Channel 248C to Keller, Texas, and modify the Station KLAK license to specify operation on Channel 248C at Keller. A Channel 248C allotment at Keller requires the substitution of Channel 230C1 at Archer City, and thus, cannot be considered. The second alternative only proposes the substitution of Channel 247C1 for Channel 248C at Waco, Texas, reallocation of Channel 247C1 to Lakeway, Texas, and modification of the Station KWTX license to specify operation on Channel 247C1 at Lakeway. The Joint Parties also proposed related channel substitutions necessary to accommodate this reallocation. However, none of these proposed channel substitutions conflict with the underlying Channel 233C3 allotment at Quanah, Texas, proposed in the *Notice*.

8. Accordingly, IT IS ORDERED, That the aforementioned proposal filed by Nation Wide Radio Stations for a Channel 233C3 allotment at Quanah, Texas, IS DISMISSED.

9. IT IS FURTHER ORDERED, That the aforementioned Counterproposal filed by the Joint Parties IS DISMISSED.

10. IT IS FURTHER ORDERED, That this proceeding IS TERMINATED.

11. For further information concerning this proceeding, contact Robert Hayne, Media Bureau, (202) 418-2177.

(Statement from the original proponent of the pending  
allotment for Channel 243A at Evant)

STATEMENT OF CHARLES CRAWFORD

My name is Charles Crawford and I am the original proponent and the only person to file an expression of interest in the pending allotment of Channel 243A at Evant, Texas. It is my understanding that Ms. Pyeatt is proposing Channel 241A as a replacement Channel for Evant, Texas while also proposing a 1<sup>st</sup> service to the community of Goldthwaite, Texas. Given that her proposal will allow for a 1<sup>st</sup> service to the deserving community of Goldthwaite, Texas while still providing for a channel at Event, Texas, I support her proposal to replace the pending allotment for Channel 243A at Evant with Channel 241A. Should the Commission grant her proposal and replace the proposed Channel 243A at Evant with Channel 241A, it is still my intention to file for that Channel when made available and if granted to promptly construct the new facility.

  
Charles Crawford
